HOW TO SET UP

1

CHOOSE YOUR FORMAT

Use the HTML file (open in Chrome/Edge) for the most interactive experience, or open the PowerPoint for a traditional classroom setup. Both work the same way.

2

DIVIDE INTO 2 TEAMS

Split students into two equal teams. Name them, write them on the board, or let students vote on names. Team energy matters!

3

EXPLAIN THE RULES

Walk students through the How to Play slide (Slide 2 in the PowerPoint) before Round 1. Keep it brief — 2 minutes max.

4

DESIGNATE A SCOREKEEPER

Assign a student or use the scoreboard slide after each round. The HTML version tracks scores automatically.

GAME RULES — ROUND BY ROUND

FACE-OFF

One student from each team comes to the front. The teacher reads the question aloud. First to raise their hand (or buzz in) gets to answer.

PLAY OR PASS

If the face-off winner's answer is on the board, their team decides: PLAY (try to get all answers) or PASS (send the other team to play).

ANSWERING

The playing team takes turns guessing answers. Each correct answer is revealed and points are added to the round pot.

STRIKES

Wrong answers earn a strike. Show strikes on screen. Three strikes ends the round and triggers a STEAL opportunity.

STEAL

The opposing team huddles and gives ONE answer. Correct = they steal all points. Wrong = original team keeps the points.

SCORING

Points are awarded at the end of each round. Track on the scoreboard slide or HTML game. Highest score after 8 rounds wins.

PRO TIPS FOR TEACHERS

■ ENERGY IS EVERYTHING

Play the real Classroom Feud theme song on YouTube as teams face off. It changes the whole vibe.

■ ACCEPT CLOSE ANSWERS

Use teacher judgment. If a student says 'talk' for 'Talk to Friends,' count it. The goal is engagement, not gotcha moments.

■ TIE-BREAKER

If scores are tied after Round 8, do a sudden-death face-off: first correct answer on a bonus question wins.

■ DIFFERENTIATION

For ELL or struggling learners, allow them to answer in L1 and have a partner translate, or show a visual cue card.
